Sheppard Air Force Base Training

360th Training Squadron (82d Training Group) is responsible for 1,400 members and four geographically separated units. It trains more than 6,000 graduates annually. It manages assets, including 15 aircraft of six types that are worth more than \$690 million. The unit develops and instructs 51 maintenance officer and enlisted aircraft maintenance courses, conducting aircraft maintenance training on two active flight lines. It maintains 10 career development courses.

361st Training Squadron (82d Training Group) trains more than 8,330 students annually. The squadron develops and instructs 60 courses in fuel and egress systems, aerospace propulsion, aerospace ground equipment, aircrew life support, survival equipment, aircraft structural maintenance, nondestructive inspection, aircraft metals technology, vehicle body repair and 13 CDCs. The squadron is responsible for more than 1,800 airmen to include two geographically separated units.

362d Training Squadron (82d Training Group) is responsible for 1,000 students and 251 permanent party personnel with three geographically separated units. It trains more than 3,000 graduates annually. The unit manages assets, including 30 tactical aircraft of three types that are worth more than \$470 million. The squadron develops and instructs 21 enlisted aircraft maintenance courses, conducting aircraft maintenance training on three active flight lines that launch more than 10,000 sorties annually. It maintains eight career development courses with a total enrollment of 5,700 Air Force maintainers and is the sole provider of Airframe and Power Plant career development courses for 75,000 eligible DoD maintainers across 24 Air Force career fields.

363rd Training Squadron (82d Training Group) trains more than 5,000 students annually. The squadron develops and instructs 19 academic apprentice, craftsman and supplemental courses for aircraft armament, nuclear weapons and conventional munitions, and military training. It maintains eight CDCs, 23 Type-V courses, and sustains course accreditation for Community College of the Air Force degree and licensing. It manages training assets valued at more than \$250 million. The squadron is responsible for more than 875 students daily.

364th Training Squadron (782d Training Group) develops and conducts mobile, in-resident, and career development technical and military training for more than 4,700 international, U.S. military and DoD civilian students annually in the telecommunications and aircraft systems maintenance career fields.

365th Training Squadron (782d Training Group) develops and conducts technical and military training for more than 2,400 international, U.S. military and DoD civilian students annually for 10 maintenance career fields, including avionics. As the Center of Excellence for avionics training, it is responsible for 29 resident and 24 nonresident CDCs executed at Sheppard AFB and U.S. Air Force installations worldwide.

366th Training Squadron (782d Training Group) conducts technical training for 13,700 Air Force, Navy and Army military, civilian and foreign students annually in civil engineer, vehicle operations and fuels career fields. The civil engineer apprentice courses are taught to Air Force, Army and Navy students at Sheppard and at civil engineer training detachments at Eglin AFB (Navy EOD school), Fla., Gulfport NCTC, Miss., and Fort Leonard Wood, MO.

367th Training Support Squadron (782d Training Group) has four missions. First is to employ ground and aerial Combat Camera forces to military operations around the globe. Second is to develop and maintain interactive courseware for aircraft maintenance training Air Force-wide. Third is to create video productions for DoD customers for public affairs, military training and information needs. Fourth, is to provide mobile TV broadcast support to aerospace power demonstrations, base air shows and Secretary of Defense town hall meetings.

882d Training Support Squadron (882d Training Group) supports three training squadrons with resource management and oversight, information systems and interactive courseware development support, and student accounting functions for approximately 20,418 students and 201 resident and nonresident courses/symposium annually. The 882 TRSS is responsible for management of 40 buildings with 94 acres to include a 53-acre medical readiness site, staff actions for 494 authorizations, an operating budget in excess of \$10 million, and \$58 million in equipment and facilities.

381st Training Squadron (882d Training Group) conducts apprentice and advanced/supplemental technical training for enlisted and officer personnel in dental assisting and dental laboratory career fields. The 381 TRS also provides medical readiness training in Basic Medical Readiness, Expeditionary Medical Support, Medical Readiness Planners and Aeromedical Evacuation Contingency Operations Training. A major function of the readiness mission includes training in basic skills to survive and operate.

382d Training Squadron (882d Training Group) is responsible for resident and nonresident officer and enlisted personnel courses in the following broad range of Air Force medical specialties: diagnostic imaging, ultrasound, diet therapy, pharmacy, medical laboratory, physical and occupational therapy, health services administration, biomedical equipment maintenance, health services management, and medical material. Squadron members manage Phase II (follow-on) training at 15 sites Air Force-wide.

383rd Training Squadron (882d Training Group) conducts apprentice-level military and advanced/supplemental technical training for medical service and surgical service technicians, mental health, cardiopulmonary, independent duty medical technician, and optometry. It also teaches advanced training in physician assistant, nursing management, staff development, infection control and epidemiology, operating room nursing, and obstetrical nursing.

372d Training Squadron (982d Training Group) provides skill-level awarding and formal advanced aircraft maintenance training for fighter, bomber and unmanned aerial vehicles for seven MAJCOMs, ANG, sister services and allied forces. It trains more than 15,000 students annually in 282 courses at 27 geographically separated units worldwide and through Mobile Field Training Teams dispatched to support Air Staff-directed weapon systems conversions.

373rd Training Squadron (982d Training Group) provides skill-level awarding and formal advanced aircraft maintenance training on airlift, tanker, special operations and special mission wide-bodied aircraft to eight MAJCOMs, ANG, sister services and allied forces. It trains more than 14,000 students annually in 357 courses at 17 CONUS detachments and through Mobile Field Training Teams dispatched worldwide to support Air Staff-directed weapon systems conversions.

982d Maintenance Squadron (982d Training Group) provides top-quality trainer maintenance for the Air Force's largest training wing and four satellite locations located across the United States through a contractor and a highly effective quality assurance team. The squadron also produces superior mechanical, electrical, electronic, pneumatic and hydraulic trainers for local and worldwide customers from various commands using highly skilled engineers and fabricators. The 982d Maintenance Squadron is heavily involved in systems development, acquisition, acceptance and configuration management of trainer devices and ground instructional training aircraft. The squadron excels at producing, fielding and maintaining instructional trainers that make it possible to deliver the highest quality training in the Air Force.
